

No Better Time To Be an RT!

Garry W. Kauffman, MPA, FACHE, RRT, FAARC

What Are CEOs Thinking?

- Cost
- Quality
- Satisfaction

Protocols

- Better quality
- Improved patient satisfaction
- Reduced cost and waste
- Improved RT staff satisfaction

Pulmonary Rehab

More valuable
than ever!

Stacking

Critical Care

- Ventilated patient weaning
- Ventilated patient mobility
- Alternative sites of care

Replace Custom with Best Practices!

- Routine ABGs > Protocol ABGs
- Inpatient PFTs > Outpatient PFTs
- O2 Spot Checks > Oxygen Management
- IS and Mucomyst > OPEP
- Stacking > Effective devices

Value Added RT Roles Outside of the Hospital

- ED
- Urgent Care
- Home Care
- DME
- SNF

**Thank you for
being an RT!**
